FEATURES & BENEFITS

TESLA CURE ZERO CORDLESS - FEATURES & BENEFITS

Pearl blue Anodised Aluminium body.

Glass protectors.

Ergonomic design handle for maximum comfort, texture grip and solvent proof.

Auto off function when curing time has finished.

Large digital display with countdown timer.

Touch button control so no need for user to hold on a trigger button through out curing.

30 x Quartz high quality LED with break proof lens.

High quality Makita click on/off battery with built in battery level indicator.

HUGE RANGE OF BATTERY CHOICES AVAILABLE

The TESLA CURE ZERO comes as standard with two 3.0 amp hour original Makita batteries and one original Makita battery charger. You can also purchase separately 2.0, 4.0, 5.0, or 6.0 amp hour batteries from any local Makita supplier.

Makita batteries deliver constant power and a long run time, even in extreme temperatures. The charger communicates with the batteries built-in chip to optimize battery life, controlling current and voltage to ensure that your batteries will last.
